## Summary

Full-stack developer building modern web with **Next.js, TypeScript and Tailwind CSS**. I focus on delivering complete solutions - from architecture to deployment - including secure infrastructure and performance optimization.

## Experience

### Rekan Group

Freelance

Erbil

Nov 2024 - Feb 2025

- **Modernized entire tech stack** from unmaintained PHP 2015 to secure and scalable web architecture in **Next.js/TypeScript**, eliminating 15+ security vulnerabilities.
- **Fixed critical business issues** including broken SEO and **converted a broken 2-language system into a fully functional 3-language (Kurdish, English, Arabic) platform**.
- **Built secure headless CMS** enabling full content control, reducing update time by 90% for non-technical team.
- **Secured infrastructure** with Cloudflare integration, blocking DDoS attacks and 1000+ malicious requests every month.
- **Delivered complete ownership** - client controls domain, hosting, and code, eliminating unreliable third parties.
